

2017 Utah Communicable Disease Rule Changes

Manual Reporters

R386-702, The Utah Communicable Disease Rule, has been updated. The rule can be found at the Division of Administrative Rules website: <https://rules.utah.gov/publicat/code/r386/r386-702.htm>. Additional information is also available at <http://health.utah.gov/epi/reporting>. Following is a summary of important changes for manual reporters.

New additions to reportable conditions

- Influenza infection suspected or confirmed to be caused by a non-seasonal influenza strain
- Pregnancy in a person with:
 - Hepatitis B infection
 - Hepatitis C infection
 - HIV infection
 - Listeriosis
 - Rubella
 - Syphilis infection, and
 - Zika virus infection

Other reporting changes

The current revision of the rule also includes substantial changes to formatting, improvements in consistency between sections, and language clarification.
